WHY SALVES FAIL TO CURE ECZEMA

Scientists are now agreed that the czema germs are lodged not in the uter skin or epidermis, but in the inner skin. Hence, a penetraling liquid is required, not an outward salve that closs the pores.

We recommend to all eczema patients the standard prescription of in liquid form known as D. D. D. Prescription. A trial bottle of this D. D. D. Prescription. A trial bottle of this D. D. D.
